PERSONAL STATEMENT

Software engineer with experience developing modern web applications using React and Node.js. Enjoy solving complex problems, building reliable software, and continuously learning new technologies.

WORK EXPERIENCE

Full Stack Developer

[@D3](#)

Sep/2025 - Present

Develop full-stack web applications using NestJS, Node.js, TypeScript, and React, building backend APIs and frontend features in a fully remote team. Promoted in recognition of increased ownership and impact.

Jr Full Stack Engineer

[@D3](#)

Feb/2024 - Oct/2025

Delivered production features across backend and frontend with NestJS, Node.js, TypeScript and React, while ramping up on the codebase, testing practices and delivery workflow.

Frontend Developer

[@Octaldev](#)

Feb/2022 - Jan/2023

Sole frontend developer responsible for designing and implementing interfaces for an e-commerce platform, an admin portal, and a CMS. Built a shared component library and internal boilerplates using TypeScript, React, Next.js, and Sass, collaborated with backend engineers and clients on product decisions, and owned frontend unit test coverage.

Software Engineer

[@Self employed](#)

Dec/2020 - Present

Ongoing open-source work and developer tooling, such as [trxsh](#), a CLI trash utility. Actively contributing to open-source across TypeScript, Go, Rust and Lua, using modern technologies.

EDUCATION

Wyden University | MA, Brazil

Bachelor of Computer Science

Jan/2023 - Present

Federal Institute of Porto Franco | MA, Brazil

Technical course in IT

Feb/2018 - Oct/2021
